

## MarkToMarket Valuation

- **Industry leader** and most technically advanced property valuation company
- **Founded by industry experts** and has the most experienced management team and staff in the valuation management business
- **Quality** is the driving force behind M2M – it is our passion and constant focus
- **REO and pre-foreclosure value reconciliations** are performed by our licensed review appraisers, not “real estate professionals” as touted by others
- **Client focused service delivery** means a single point of contact and a formalized service level agreement with dual expectations clearly expressed
- **Customized** reporting and integrated data transfer via web services available
- **Automated BPO ordering** and report delivery
- **Robust automated and human quality control** standards set to your tolerance levels
- **MSP integration** with many of our servicing clients
- **Purchased data** to ensure our agents and appraisers pick the most appropriate comps and to review the resale and deed transfer pattern of the subject property
- **SAS-70 certified primary and hold-over hosting facilities** to ensure the most contemporary security measures are employed to make your data safe and secure and that M2M is operational under the most extreme circumstances
- **Continuous pursuit of quality improvement** ensures we always meet and exceed our client’s expectations
- **Flexibility** not only from a product prospective, but from a service partner prospective. We understand that your needs and valuation orders are not homogeneous – we are in business to solve problems not to put up barriers to success
- **Commitment** we will continue our success by staying the course, and capturing every opportunity to deliver a top quality valuation reports

***MarkToMarket is the total quality solution to your real estate valuation needs...***
